CHRISTIANA BOROUGH NEWS

Summer Edition 2025

The borough would like to express our sincere thanks to residents for your patience during our water main and gate valve replacement project. This project was funded with a $1M grant awarded to the borough through a Local Share Account grant. As part of this project we have inserted 18 new gate valves that will allow us to isolate water emergencies to specific areas without having to impact the entire town. This project also replaced approximate 2,000 feet of water main and made necessary connections for continuous water flow. We are thankful and thrilled it is complete!
